

# OXYFLEX

To Assist Vascular Health and Function.

**BIOFLAVONOIDS  
& VITAMIN C**

**DIGESTIVE  
ENZYMES**

**PREBIOTICS  
& PROBIOTICS**

A revolutionary all-natural combination of powerful concentrated bioflavonoids, probiotics and digestive enzymes to support the entire respiratory and vascular system.

Bioflavonoids - aka flavonoids or “vitamin P” - are a large class of powerful phytochemicals. They appear in fruit, vegetables and herbs, and are best absorbed in their raw form. At 1equine we have incorporated our revolutionary “Freeze-dried” technology, to ensure we maximise our raw ingredients nutrient levels and also significantly concentrate the bioflavonoid levels.

Studies have shown that bioflavonoids help strengthen the capillaries, can improve microcirculation, capillary flow and vascular tone, ultimately resulting in superior cardiovascular health.

Oxyflex contains an extensive range of bioflavonoids, including Rutin, Quercetin, Hesperidin, Catechin and Ellagic acid. Each bioflavonoid has unique properties that provide excellent health properties. When they work synergistically their potency is heightened even further.

Research also reveals that active bioflavonoids have anti-fatigue (including Lactic Acid buildup) effects that can reduce the damage of oxidative stress caused by high intensity exercise.

## SPECIFICATIONS

**SIZE:** 2.5 kg & 7.5 kg Powder

**DOSE:** 1 Heaped Scoop (25 grams per day).

**STORAGE:** Store in a cool dry place below 25°C. Keep away from direct sunlight. Replace lid firmly after use.

**SAFE HANDLING:** Handle in accordance with good industry practice.

### FOR ANIMAL CONSUMPTION ONLY.

Nutritional supplement product for inclusion in animals feed. To supplement diets where levels may be low.

## ACTIVE INGREDIENTS

Each dose contains:

1Equine Bioflavonoid Freeze-dried Blend.... 16,000 mg  
(Apple powder, Citrus Peel Powder, Beetroot Powder, Green Banana Powder)

Herbal Blend ..... 500 mg  
(Rosehips, Hawthorne, Elecampane, Nettle, Rue)

Live Probiotic ..... 12 billion CFU's  
(Bacillus subtilis, Enterococcus faecium, Lactobacillus acidophilus, Bifidobacterium longum, Bifidobacterium thermophilum)

Chlorella..... 3,000 mg

Sodium Ascorbate (Vitamin C) ..... 500 mg

Digestive Enzymes..... 500 mg  
(Alpha-amylase, Protease, Cellulase, Lipase, Pectinase)

# OXYFLEX

To Assist Vascular Health and Function.

## BENEFITS OF OXYFLEX

Blood health boosting abilities, through enhancing the production of Red Blood Cells.

Strengthen and increase flexibility in blood vessels, such as arteries and capillaries.

Vasodilator, will improve micro-circulation, capillary flow and vascular tone.

Supports the walls of the veins and helps to ensure a more efficient function.

Reduce cardiovascular issues and dysfunctions.

Potent antioxidants, that will aid in reducing oxidative damage to cells, including damaged or compromised blood vessels.

Assists with hypertension, resulting in a lowered blood pressure.

Reduce the accumulation of Lactic Acid.

Relieves fatigue by positively regulating the body's energy metabolism.

Anti-inflammatory.

Contains naturally high Vitamin C levels, whilst also increasing the effectiveness of Vitamin C.

Natural antihistamine, which lowers the effects of seasonal allergy and symptoms.

It's antimicrobial properties can assist with reducing and controlling ulcers.

Improved digestion with the high inclusion of Probiotics, equals to 12 Billion CFU's per dose.

Improved digestion with the Inclusion of Digestive Enzymes - Alpha-amylase, Protease, Cellulose, Lipase and Pectinase.
